

LG VX5200 Rear Body Panel Disassembly

Written By: Douglas Blaaid

INTRODUCTION

A few steps to remove the back of the phone.

TOOLS:

- [iFixit Opening Tools](#) (1)
 - [Phillips #00 Screwdriver](#) (1)
 - [Push Pin](#) (1)
-

Step 1 — Battery

- Turn the phone on its back.

Step 2

- Orient the phone as shown.
- Remove the battery cover by pushing upward with your thumb.

Step 3

- Place your fingernail at the top of the battery and pry the battery out towards you.

Step 4 — LG VX5200 Rear Body Panel Disassembly

- Orient the phone as shown with the battery already removed.

Step 5

- Remove the 2 plastic plugs located on the side and upper quadrant of the rear body panel by using the push-pin and lifting outwards.
- Use a Phillips #00 screwdriver to remove the 5 screws as shown here.

Step 6

- Place an iPod opener tool in the seam above the antenna.
- Run the tool around the perimeter of the entire phone.

Step 7

- Check to see that your device looks like the attached photo.

To reassemble your device, follow these instructions in reverse order.
